Addendum #1
Payment Terms

1. Grant writing and grant administration services will be provided to Jefferson County as a fixed-fee contract for each grant application developed and submitted. Each fixed-fee task order will be negotiated prior to grant application development based on our experience with RESTORE Act Programs and current work with grantee counties, as well as, project related factors including: anticipated project scope, total amount of the project cost and current stage of completion. Those fees shall not exceed 3% of total grant award amount for grant writing services and 7% for grant administration services. Grant writing and grant administration services are eligible direct project costs, and deemed reasonable, allowable and allocable under 2 CFR part 200 and RESTORE Act Terms and Conditions.

2. Fee schedule is inclusive of all travel, costs and expenses incurred in performance of these professional services.

3. Langton Associates acknowledges and accepts payment terms as defined in detail above in Paragraph IX of the Agreement that all fees to be paid to the firm shall be funded exclusively from RESTORE Act federal grant funds upon their authorization and availability.

RESTORE Act Grant Consultant Services Contract Amendment Proposal

To John Stutts and Office of Gulf Coast Restoration Staff,

Based on the initial feedback given to Gulf County regarding the fee structure in our contract, we understand that Treasury is seeking to ensure compliance and reasonableness as we continue our efforts to support our clients with their Direct Component funding. As you know, our clients are predominately the more rural, small counties that do not have the staff capacity to execute the workload nor the resources to pay for consultant services outside of the grant funds. By Treasury allowing grant consultant services as a reimbursable expense to be funded through the grant, it greatly enhances the Counties' abilities to implement their allocation of RESTORE funds and achieve the mission of Gulf Coast Restoration.

All of us involved have been "building the plane as we fly it" and so in trying to determine how best to fund our efforts we developed a percentage fee structure based on our previous work for grant writing for Florida's Spill Impact Component SEP (3%) and our understanding of DEP's cost structure for administering grants under the Council-Selected Restoration Component or Bucket 2 (7%), as noted in our RFQ Response in the Cost Proposal section. We understand that percentage based fees may not be sufficient and propose the following amendment to our fee structure.

Grant writing and grant administration services will be provided to the County as a fixed-fee contract for each grant application developed and submitted. Each fixed-fee task order will be negotiated prior to grant application development based on our experience with RESTORE Act Programs and current work with grantee counties, as well as, project related factors including: anticipated project scope, total amount of the project cost and current stage of completion.

Since we have structured our contract so that we can only be paid by RESTORE funds, our services must be a line item in an approved grant with a predetermined amount which is why amending our contract to be structured as a fixed fee would be effective. Grant writing and grant administration services are eligible direct project costs and if negotiated as a fixed fee should be deemed reasonable, allowable and allocable under 2 CFR 200 and RESTORE Act guidelines. We appreciate your continued thoughtfulness and dedication to the Florida Counties and look forward to hearing your thoughts on this proposed amendment.

Sincerely,

Michael Langton, GPC

Consent Agenda:

General Business:

Item B: New Legislative Representative has requested projects be discussed and reported as priority from BOCC's perspective.

Item D: SCRAP/SCOP new projects to be submitted by the Board of County Commissioners. SCRAP: Turney Anderson was removed by DOT in last cycle, this would be the next logical placement available. Boland Cemetery Road has been discussed previously and is recommended as the second submittal during this cycle. SCOP: Shoulder widening for Portions of Boston Highway and Ashville Highway - add 1 foot lane and 4 feet shoulder for bicycle lane.

Item E: The Bridge over the Aucilla River, Salt Road has been ordered Closed by FDOT. The reports show the ground level has washed over the years to a critical level that is not safe for traffic to utilize. A quote was received to repair the reported problems which ends up at a cost well above Jefferson County's ability to cover.

Item F: North Florida Economic Development Council needs this year's commissioner appointment and the designee. The FDOT is having a Toll Road Committee formed to work on a huge project in the coming future. We understand a commissioner would need to be appointed in the effected counties like Jefferson County is to be at this time.

County Coordinator Items:

Gun Range information will be presented and the next steps decided, hopefully.

Yeager house has been ongoing with improvements and getting closer. How far do we plan to improve? and/or is there a desire to place for Closed Bids to be submitted in as is condition. ***Additional painting is needed and flooring to complete the process. If we complete these two items especially not sure if the cost will be recouped due to purchaser wanting their own colors along with style of flooring? HOWEVER, if we do not complete these items the home is not finished and will suffer in price.
