PART I – BACKGROUND

The Resources and Ecosystems Sustainability, Tourism Opportunities, and Revived Economies of the Gulf Coast States Act of 2012 (RESTORE Act) established a new Trust Fund in the Treasury of the United States, known as the Gulf Restoration Trust Fund, as a result of the Deepwater Horizon Oil Spill and the damages it caused to Florida coastal communities. Jefferson County Board of County Commissioners has been allocated RESTORE Act Direct Component Program funding to conduct eligible projects for the purpose of restoring the Florida Gulf Coast.

PART II – GENERAL INFORMATION

The Jefferson County Board of County Commissioners is seeking Professional Consultant Services for Access to Broadband Construction Planning. Jefferson County has private fiber optic networks in place that lack infrastructure components such as end point connections necessary to provide broadband services in many unincorporated areas. To support a diverse and sustainable economy, Jefferson County needs improvement to, and expansion of, the existing fiber optic infrastructure network. It is preferred that the Professional Services Consultant associate with a current or proposed future network services provider which proposes to expand an existing network or establish a new network in the County. The following neighborhoods with unmet need have been identified: US Highway North in vicinity of Jefferson Kennel Club; Asheville highway and Aucilla Shores area; Government Farms area; Aucilla Forest area; US Highway 90 West/Main Street area; US Highway 90 West in vicinity of Tallamont Drive, Desearcy Lane, Rhea Street, Tally Hills Drive and Sundance; Linton Place; Christmas Acres; Old Lloyd, including the I-10 Interchange and Heritage Hills; South Lloyd/Sanctuary; Bishop Cemetery area; and Waukeenah. The purpose of this project is to identify the needs and implement solutions to improve fiber optic infrastructure in rural Jefferson County.

PART V – OBJECTIVES AND SCOPE OF WORK

ACCESS TO BROADBAND CONSTRUCTION PLANNING – Respondent shall provide a clear and concise plan that includes, but is not limited to: type and cost of equipment required, types and costs of permits required to complete the construction work, and anticipated timeline to complete the construction.

OBJECTIVES – Jefferson County has been awarded a RESTORE Act Program planning grant to fund the design, through final engineering, for provision of internet broadband services to designated areas of unincorporated Jefferson County. The County will select a Professional Services Consultant for Access to Broadband Construction Planning, which preferably would associate a current or proposed future broadband network services provider, to utilize the RESTORE Act planning grant funds to design, through final engineering, an expanded broadband system meeting the following network requirements:

- The proposed network to provide broadband expansion is to be designed and operated by an established or proposed future network provider. Jefferson County is acting as
the grantee recipient of RESTORE Act funds, and is obligated to the federal government to propose an Estimated Useful Life of the infrastructure from the date of construction completion. After the term of the Estimated Useful Life of the infrastructure has ended, the County will negotiate ownership of the broadband network with the selected provider. Jefferson County (Grantee) and the U.S. Department of Treasury (Grantor) will hold a vested federal interest in the infrastructure until the Estimated Useful Life terms ends.

- As this first phase of the project, Jefferson County has been awarded a planning grant from the RESTORE Act to fund the design, through final engineering, of an expanded broadband internet services system according to the System Objectives stated herein, and the Scope of Services stated below. Once the current first phase is completed, the County expects to apply for additional RESTORE Act funds for the construction of the project according to the final design generated during this first phase. How much of the system, as finally designed, is to be funded through a second phase application of RESTORE Act funds shall be determined at the sole discretion of Jefferson County. Selection of a Proposal/Respondent for this first phase does not guarantee selection of the same Respondent for any subsequent phase.

- The proposal shall be for a “hard wired” system only. No proposals for services by wireless transmission to customers’ premises will be considered.

- The network must have the ability to provide expanded broadband services to the following designated areas of unincorporated Jefferson County: US Highway North in vicinity of Jefferson Kennel Club; Asheville highway and Aucilla Shores area; Government Farms area; Aucilla Forest area; US Highway 90 West/Main Street area; US Highway 90 West in vicinity of Tallamont Drive, Desearcy Lane, Rhea Street, Tally Hills Drive and Sundance; Linton Place; Christmas Acres; Old Lloyd, including the I-10 Interchange and Heritage Hills; South Lloyd/Sanctuary; Bishop Cemetery area; and Waukeenah.

- The network installed and operated by the service provider should be expandable in a manner as efficient and effective as possible to increase capacity and to accommodate advances in technology as may be reasonably be expected to become available over the Estimated Useful Life of the network (at least 20 years). On this basis, it would be preferred, at a minimum, that the design for the system expansion include a sufficient number of spare fiber strands in the backbone and distribution routes, as well as additional expansion slots in electronics cabinets, to accommodate expansion cards for such additional future subscribers as may be reasonably expected.

- The network must be designed to adhere to all current and generally accepted technical standards, building codes, construction practices, and other regulations,
specifications, and standards as may apply in the broadband networking industry. Also, all federal and state regulations and codes applicable to the network, its construction and its operation and services must be observed.

- The network must be designed to provide high-speed data connection to the internet as well as voice services (at subscriber option). Voice services must include all features that are commonly available with current internet based telephone services.

- The network, as designed, is not expected to provide Cable TV service, although the system must be fully capable of accommodating Internet Protocol Television and other internet based video services, including interactive video services.

**SCOPE OF WORK** - Respondent shall provide a clear and concise plan that includes, but is not limited to: type and cost of equipment required, types and costs of permits required to complete the construction work, and anticipated timeline to complete the construction.

- Provision of a design, through final engineering, for either completion of an existing system, or for construction of a new system, to provide expanded broadband access to areas of unincorporated Jefferson County designated in the System Objectives section above.

- Include such site visits as are necessary to evaluate and design system expansion or design of new system.

- As the sole responsibility of the proposer, to evaluate, inspect and thoroughly consider as part of the design process, all existing infrastructure, utility poles, available network resources of other network providers, available public and private utility and road rights of way, and such other existing features as must necessarily be considered as part of the design and final engineering process.

- Identify all necessary federal and state licenses, permits and approvals.

- Specify testing and quality assurance procedures necessary to ensure that the completed network will perform as designed and that all work will be good and workmanlike.

- Identify and describe any other functions and services that may be required or recommended to ensure successful, timely, and responsive construction of the system expansion or new system.

- Create a budget for final build out of the system as designed that includes all aspects of permitting, utility pole, right of way use, and other agreements, construction costs
(including cable installation, “hut” construction, if any, and all other construction elements), construction oversight, and network equipment.

- Identify the typical one time and recurring costs to costumers of the broadband services including the cost of connection to the provider’s network, typical monthly user or service fees and charges, and the customers’ on premise equipment necessary to utilize the network.

- Identify a proposed legal arrangement by which the system will be operated and maintained during the useful life of the infrastructure in which Jefferson County will be the owner and the system will be operated and maintained by a current or future proposed network services provider.

PART VI – EVALUATION/SELECTION PROCESS

Jefferson County shall follow the procedures of the Consultants’ Competitive Negotiation Act, Title XIX, Chapter 287, Section 055 of the Florida Statutes. The selection committee shall consider the following factors:

1. Prepare an alphabetical listing of proposers determined to be interested and available. Evaluate the proposals meeting minimum submission criteria based upon qualifications. Selection as best qualified will be based on the following considerations:

In compliance with 2 CFR 200.320(d)(1), the Selection Review Committee will consider the most qualified firm that demonstrates the knowledge, qualification and ability to complete the intended Scope of Work based on the above listed criteria provided by the proposers. A proposer’s ability to successfully complete the Scope of Work should be based on their demonstrated qualifications, past accomplishments of similar work, financial responsibility, and staff availability and capacity in order to accurately determine that the project objectives will be achieved timely, feasibly, and in compliance with federal uniform guidance and RESTORE Act Standard Terms and Conditions.

2. Review of all responses to the Request for Proposals received will proceed as follows:
   a. The Review Committee will review all written documents submitted;
   b. The Committee’s ranking of prospective firms shall be based on the Evaluation Criteria listed above;
   c. The Committee may request oral presentations/interviews from the Respondent when establishing the recommended priority or short list. Respondents will be notified of dates and times of any interviews.

3. Direct one-on-one contact with any of the Board of County Commissioners members, the County Coordinator, or County Attorney is not allowed during the short listing process unless initiated by the County to request specific information to understand information submitted in the proposal.

4. The County reserves the right to accept or reject any or all submittals that it may, in its sole and absolute discretion, deem unresponsive, or waive technicalities which best services the overall interests of the County. The County Commission’s decision on these matters shall be final.

PART VII – COST AND PRICE ANALYSIS

The County has conducted a cost and price analysis to create a budget for the Scope of Work required, in accordance with 2 CFR §200.323. This cost and price analysis will be used to evaluate the Respondents during the Evaluation/Selection Process.

PART VIII – SMALL, MINORITY, WOMEN, DISADVANTAGED BUSINESS ENTERPRISES AND LABOR SURPLUS PARTICIPATION

The County encourages the use of small, women, minority and labor surplus business enterprises to participate in this Request for Qualifications process. The County will conduct the following six (6) required affirmative steps to assure that small, minority, women and labor surplus business enterprises, are used when possible as required by 2 CFR §200.321:

1. Place small, minority, and women’s business enterprises on a solicitation list;
2. Assure that small, minority, and women’s business enterprises are solicited whenever there are potential resources;
3. Divide the total requirements, when economically feasible, into smaller tasks or quantities permit maximum participation by small, minority, and women’s business enterprises;
4. Establish a delivery schedule, where requirement permits, which encourages participation from small, minority, and women’s business enterprises;
5. Use services provided by SBA or other organizations to encourage participation from small, minority, and women’s business enterprises; and
6. Require the prime contractor to consider the 5 affirmative steps above when selecting subcontractors.

PART X – DISADVANTAGED BUSINESS ENTERPRISES

The Jefferson County Board of County Commissioners hereby affirms that it will affirmatively ensure that any Disadvantaged Business Enterprise will be afforded full opportunity to submit Statement of Qualifications in response to this invitation and will not be discriminated against on the grounds of race, color, gender, religion, age, disability, marital status or national origin in consideration for an award.

arm's length agreement, shall be a prima facie case that one person controls another person. A person who knowingly enters into a joint venture with a person who has been convicted of a public entity crime in Florida during the preceding thirty-six (36) months shall be considered an affiliate.

5. I understand that a "person" as defined in Paragraph 287.133(1)(e), Florida Statutes (2017), means any natural person or entity organized under the laws of any state or of the United States with the legal power to enter into a binding Contract and which Proposals or applies to Proposal on Contracts for the provisions of goods or services let by a public entity, or which otherwise transacts or applies to transact business with a public entity. The term "person" includes those officers, directors, executives, partners, shareholders, employees, members, and agents who are active in management of an entity.

6. Based on information and belief, the statement which I have marked below is true in relation to the entity submitting this sworn statement: [indicate which statement applies]

   ____ Neither the entity submitting this sworn statement, nor any of its officers, directors, executives, partners, shareholders, employees, members, or agents who are active in the management of the entity, nor any affiliate of the entity has been charged with and convicted of a public entity crime subsequent to July 1, 1989.

   ____ The entity submitting this sworn statement, or one or more of its officers, directors, executives, partners, shareholders, employees, members, or agents who are active in the management of the entity, or an affiliate of the entity has been charged with and convicted of a public entity crime subsequent to July 1, 1989.

   ____ The entity submitting this sworn statement, or one or more of its officers, directors, executives, partners, shareholders, employees, members, or agents who are active in the management of the entity, or an affiliate of the entity has been charged with and convicted of a public entity crime subsequent to July 1, 1989. However, there has been a subsequent proceeding before a Hearing Officer of the State of Florida, Division of Administrative Hearings and the Final Order entered by the Hearing Officer determined that it was not in the public interest to place the entity submitting this sworn statement on the convicted vendor list [attach a copy of the final order].

I understand that the submission of this form to the contracting officer for the public entity identified in paragraph 1 (one) above is for that public entity only and, that this form is valid through December 31, of the calendar year in which it is filed. I also understand that I am required to inform the public entity prior to entering into a contract.
